PRIMER SAZZE

Primer

Custom-built for enterprise companies

Experts from all walks of life became part of Listly and saw the benefits of automated data collection.

Import data from **tens of thousands pages** into a **single spreadsheet**

A lot of data is being collected every second in many different fields, and Listly is here to help you discover and explore data from various types of web sources.

No-code web scraping tool anyone can use

With Listly's easy-to-use web scraping tool, you can export data directly to a spreadsheet in seconds without coding. Make your work easier and more efficient.

Flexible to adapt to any changes in the website design

Listly is flexible and robust to deal with website updates or changes in HTML structure.

All it takes is just a few seconds

Listly's powerful algorithms identify particular HTML elements from which to scrape and patterns in data. Save time and money with Listly.

Clean and structured data at your fingertips

With Listly, you can collect any type of web pages, from a single page to hundreds of pages without any prior knowledge or experience in coding.

Leave the mundane tasks to Listly and focus what matters the most to you.

Building a web scraper

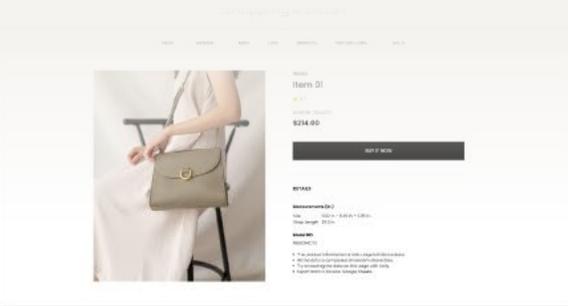

- ✓ Define custom logic to scrape data on any websites that a user wants
- ✓ Allow for customization to fit specific business needs
- ⚠ Resource-intensive
- ⚠ Scalability challenges
- ⚠ Maintenance and monitoring required
- ⚠ Knowledge barriers to programming

LISTLY

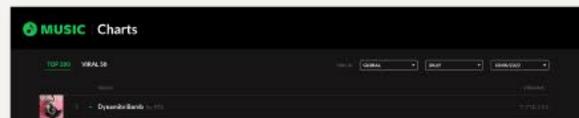

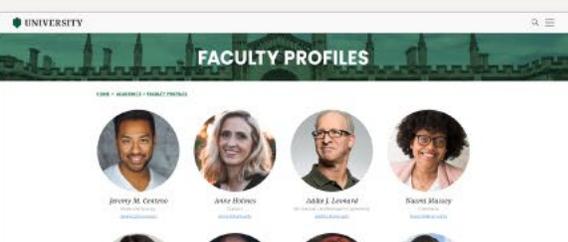

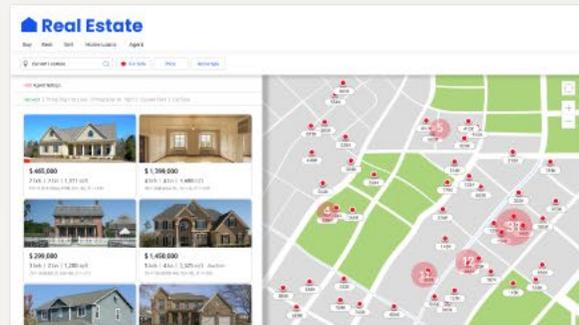

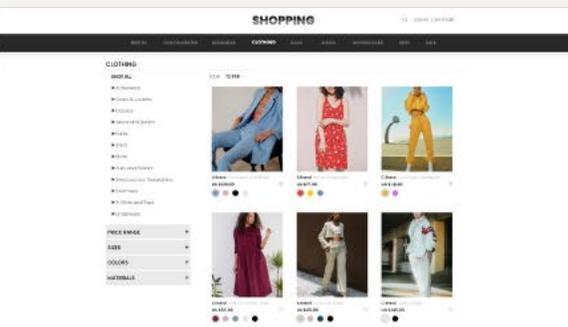

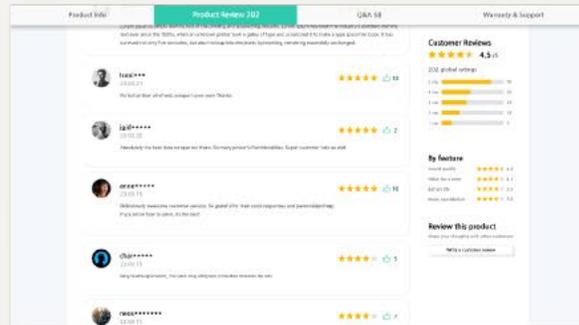

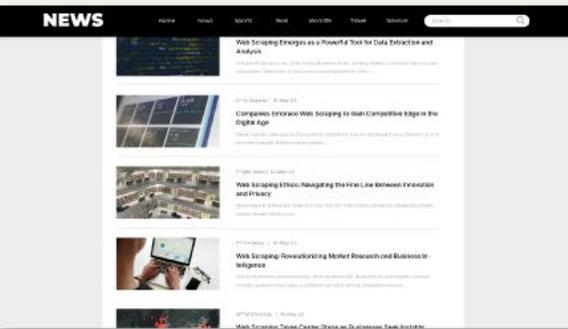

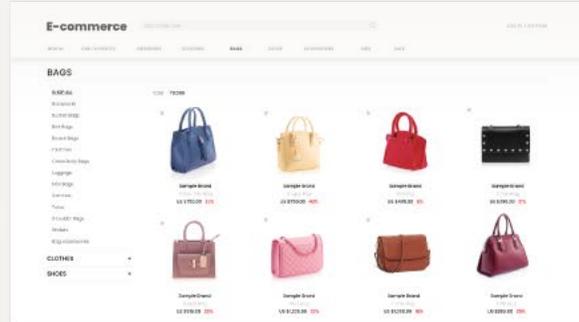

- ✓ **No-code** web scraping tool that scale across teams
- ✓ **Flexibility** to deal with website updates in HTML structure
- ✓ View and download data **immediately**
- ✓ Company-wide scaling **without extra charge**
- ✓ Real-time task management available
- ✓ Custom data collection

Outsourcing

- ✓ Can focus on core competencies and free up time
- ✓ Ideal for short-term projects
- ⚠ Web scraping setup and maintenance costs may vary
- ⚠ Extra charge for work not outlined in the original contract
- ⚠ Loss of control
- ⚠ Financial risks and communication costs

Do you need large-scale web scraping?

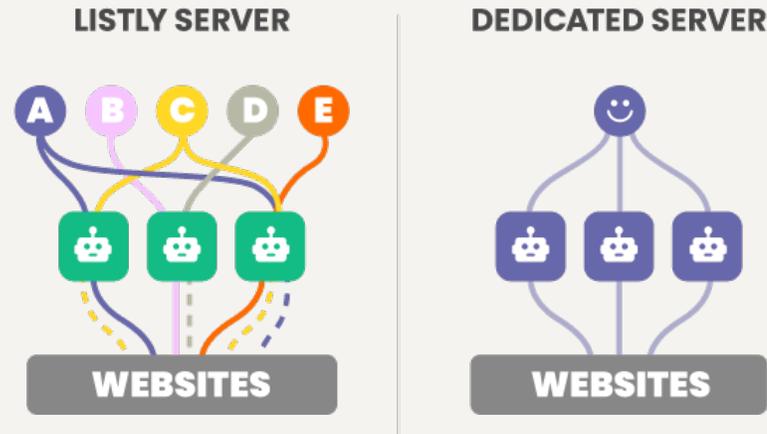

Listly Enterprise is priced based on the number of web scrapers (scraping speed) and servers. Unlimited URL extraction is available on this plan.

Are you looking for an enterprise-level web scraping tool?

Listly Enterprise is available for all team members at no extra cost. You can add your team members to your workplace or deactivate user accounts any time you want.

DEDICATED

Collect data with **reliable dedicated servers**

Listly provides enterprise companies with **dedicated servers** for regular and professional use. With exclusive access to dedicated servers, companies can collect data without getting blocked anytime they want. Scheduling web scraping jobs every minute or at specified times is available on this plan.

Private cloud environments allowing access to specific IP addresses are also available **upon request**.

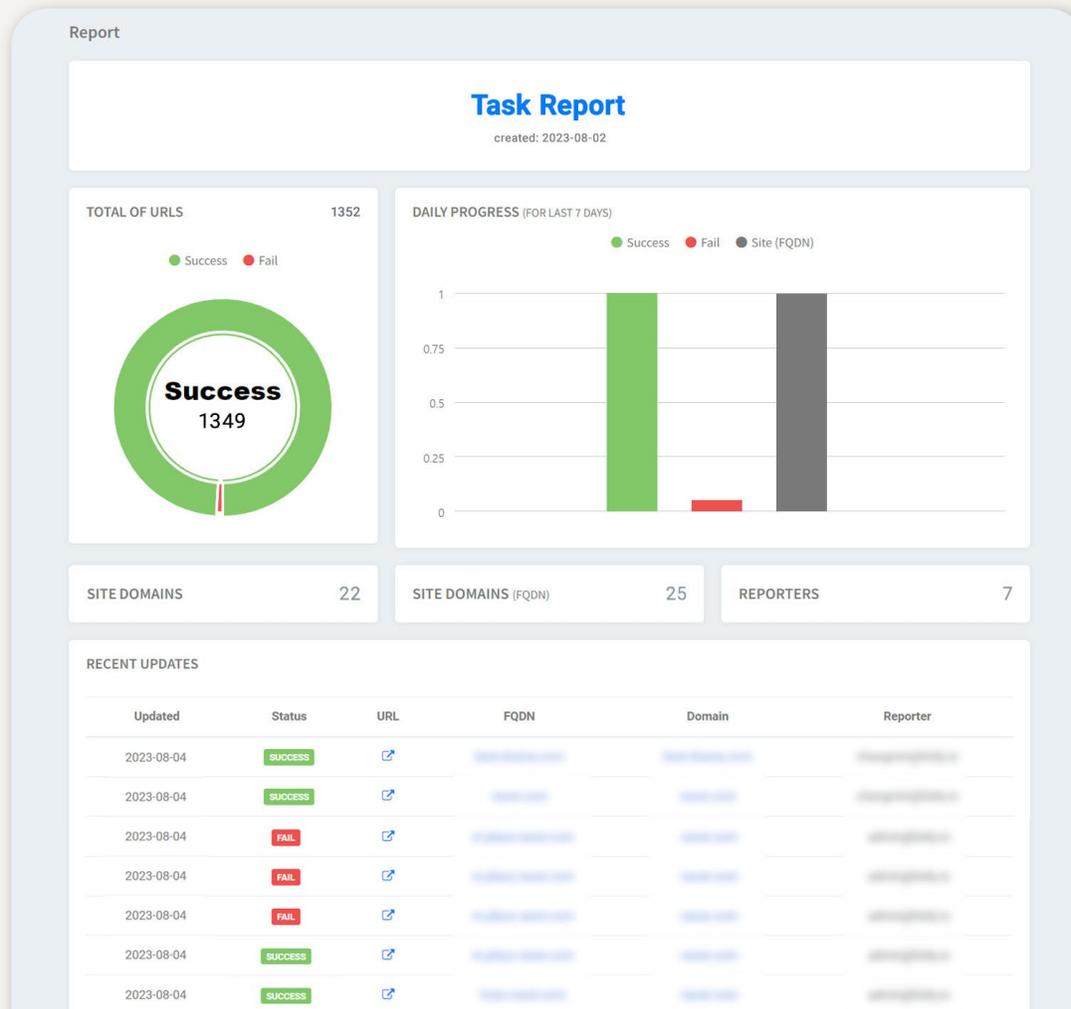

| Public Proxy Server(www.listly.io) | Dedicated Server (company-name.listly.io) |
|--|---|
| <p>Share servers that provide access to resources with all other users.</p> <p>Web scraping and waiting time may take a while due to the limited number of server resources.</p> | <p>Enjoy a dedicated server that provides exclusive access to resources and unlimited URLs(credits) for web scraping.</p> <p>Secure proxy servers available upon request.</p> |

*A web scraper automates the process of gathering data from web pages. The more the web scrapers, the faster the scraping jobs are.

REPORT

Track project progress at a glance

▽ A snapshot of Admins Task Report

Listly's Task Report gives you an at-a-glance visual overview that lets you quickly track the progress of scraping tasks that all your team members are working on, including the total number of URLs, total count of success/failed records and ratio, and team member accounts.

You can simply include or exclude single and group-level scraping jobs on the report, and the registered tasks are updated in real-time.

Business Plan vs [Enterprise Plan](#)

What makes Listly Enterprise different?

The [Listly Enterprise](#) plan is more suitable for businesses to collect large-scale data without needing to recharge URL credits, allowing for unlimited licenses for all team member accounts.

+ Everything in Listly Business and all the flexibility to meet enterprise-level requirements are available on the Enterprise plan.

+ Custom Databoard is available to help enterprise companies easily track their web scraping progress.

BUSINESS PLAN (Personal & Small Business)

- ✓ 1 subscription license
- ✓ Public servers and scrapers*
- ✓ 9,000 URLs per month
- ✓ Extraction speed : Up to 15 URLs per account
- ✓ Scheduler available on a daily basis
- ✓ Up to 1,000 URLs can be scraped per group task
- ✗ Dedicated servers not available
- ✗ Proxy sharing not allowed
- ✗ Task summary report not supported
- ✗ Multiple log-ins available
- ✗ Admins mode not available

ENTERPRISE PLAN (Businesses of all sizes)

- ✓ **Unlimited licenses**
- ✓ **Dedicated servers / exclusive access to resources****
- ✓ **Unlimited URLs**
- ✓ Extraction speed : no limit per account
(The maximum number of scrapers may be limited)
- ✓ Scheduler: 1-minute or hourly granularity *beta*

CHECK OUT LISTLY

The screenshot displays an e-commerce website interface for the 'BAGS' category. The top navigation bar includes 'NEW IN', 'OUR FAVORITES', 'DESIGNERS', 'CLOTHING', 'BAGS', 'SHOES', and 'ACCESSORIES'. The 'BAGS' section shows a total of 78,596 items. A sidebar on the left lists various bag types such as Backpacks, Bucket Bags, Belt Bags, Beach Bags, Clutches, Cross Body Bags, Luggage, Mini Bags, Satchels, Totes, Shoulder Bags, Wallets, and Bag Accessories. The main content area features product listings with images and prices. A data table overlay is visible on the right side of the page, showing columns for product details and prices. The table includes columns for HREF, LABEL-3, LABEL-4, and LABEL-5, with rows listing various bag models and their corresponding prices.
